

ROTO-POINT

Low Cost Secure Management

- Up to 468 secure locations
- 24/7 stock availability
- Secure returns capability
- Manual override
- Expandable system
- No periodic maintenance
- Stand alone option

Used in conjunction with the ToolBOSS™ Inventory Management Software, ROTO-POINT provides a scalable and cost effective solution for the secure management of a wide range of high — and low — usage items. The ROTO-POINT is an ideal solution where space is limited, but the need for managing a large number of different items is essential; for example, the management of a wide variety of inserts, tool holders, drills, endmills, and MRO items.

ROTO-POINT

Versatile and expandable, ROTO-POINT is easily integrated into the leading inventory management solution from ToolBOSS™

LOW TO HIGH VOLUME

The ROTO-POINT is available in 6 variations providing a wide number of locations from 36 to a maximum of 468 in a single unit.

SECURE RETURNS CAPABILITY

The ROTO-POINT has an easy and secure returns capability, controlling access to a single compartment only.

MANUAL OVERRIDE

In an ideal world manual override would never be needed, but if required, the ROTO-POINT has a simple manual override which allows the contents to be accessed in case of computer failure.

SECURITY

The compartments in the ROTO-POINT are hidden from view behind sturdy sliding doors and can withstand vigorous operation. The contents can be randomly distributed around the ROTO-POINT, reducing the risk of unauthorized removal of contents.

EFFICIENCY

Multiple compartments can be selected in a single transaction minimizing the time required to manage large volumes of stock.

TRACEABILITY

The powerful tried and tested ToolBOSS™ software provides a complete audit trail allowing the company to know who, when, where, and why about the usage of any component.

EXPANDABILITY

The ROTO-POINT can be expanded up to 10 units per system to provide up to 4680 secure locations managed and controlled by the powerful management software designed and developed by ToolBOSS™ Systems' experienced engineers.

SPECIFICATION

Dimensions (W x D x H)

1105mm x 1000mm x 2025mm
43.5" x 39.4" x 79.7"

Power requirements

110v

Location

Location compartments are 290mm (11.4") deep and taper to back

ROTO-POINT options

Machine Type	Locations Per Level	Max Locations Per Machine	Door Dimensions W x H		Weight	
			mm	in	kg	lb
1	9	36	320 x 350	12.6 x 13.8	350	770
